And we're off!

Welcome to Dear Neighbour, our newsletter that keeps you updated on the Hethersett Primary School project

We have recently started work on this project which will see the construction of a new primary school and nursery on Coachmaker Way, Hethersett.

The first operations on site involved the initial vegetation strip from the existing site. From this we were able to ascertain the levels and ground conditions which enabled us to commence with the construction works. During this time mucking away of unneeded materials has been commenced.

This has been a busy period of activity, and you may have noticed an increase in construction traffic in the recent weeks. We are doing everything possible to minimise the impact to the surrounding area and are working in accordance with our approved traffic management plan to further assist in ensuring minimal disruption.

Stakeholders recently joined us as part of our ground breaking event to mark the official start of the project (pictured right), and the project will now take us through until completion – Summer 2020.

Our current operations include the construction of the permanent car-park and piling works. Once piling works are complete this will release foundations in readiness for the steel frame erection in August!

The project has its own website, where you can find out more about the scheme and keep up to date with the latest news:

www.hethersettprimaryproject.co.uk

(P.S. Newsletters will generally be issued every 2 months, so be sure to keep an eye out!)

#loveconstruction

This project will be registered under the Considerate Constructors Scheme very soon!
