Year Three: Lime

Dear Parents,

Welcome back after the Easter break. We were very excited to welcome all of the children back after the period of home learning for most of the school and look forward to the next term of learning as we move into the summer months. We would like to take this opportunity to thank you again for the support you have given your child over the challenging time of the last few months.

PE will remain on Tuesdays and Thursdays.

Our topic for this half-term is 'Forces and Magnets'. We will be exploring how things move, how magnets attract and repel, investigating magnetic and non-magnetic materials and learning about magnetic poles. In English, we will be studying the text 'The Iron Man' which will inspire a variety of both fiction and non-fiction writing. In maths we will be continuing our work on multiplication and division, revisiting addition and subtraction strategies, exploring length (including perimeter and area) and looking at fractions.

Please see below for a summary of all the learning taking place over the course of the half-term. We advise children to bring a sun hat and apply sun cream for warmer days. (suncream cannot be applied in school.)

If there is any further information or support you require, please do try and catch one of us at the school gate; contact us via email or contact the school office to arrange a conversation.

Kind Regards

Mrs de Bloeme and Mrs Easey

Homework

We will give children homework via our Google Classroom page.

Every Monday, we will send out the weekly Year 3 spellings for children to practise at home. We also ask that they practise their Times Tables. Everyone has a particular Times Table they are currently working on. It is also useful to occasionally revisit those that children are more secure on to keep their fluency.

Other homework based on our science topic, English, maths or foundation subjects will be added on a Friday.
