

Knowledge Organiser: Yr1 Science: Humans and Our 5 Senses

Hethersett Woodside Primary & Nursery

I already know ...

I know some parts of my body. I can use my senses to find out about the world around.

New Knowledge

We are humans. We are from a family of animals called mammals.
The basic parts of a human body are: hair, eyes, ears, eyebrows, nose, mouth, chin, neck, shoulder, chest, arm, wrist, hand, tummy, knee, leg, ankle and foot.
Humans have five senses: sight, hearing, touch, taste and smell.

Senses

sight

hearing

touch

taste

smell

Key Vocabulary

This means ...

animal

A living thing.

mammal

An animal with fur or hair, that feeds on milk from its mother when they are young.

senses

Something that helps us gather information about the world. (sight, hearing, touch, smell and taste)

sight

Your eyes let you see all the things around you.

hearing

Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.

touch

Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!

taste

Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.

smell

You smell using your nose. Your nose can tell if things smell nice or not nice.

Parts of the Body
