

Knowledge Organiser: Year 2 Science: Space

Hethersett Woodside Primary & Nursery

I already know ...	<ul style="list-style-type: none">- the basic properties of everyday materials- the seasons we have on Earth
--------------------	---

New Knowledge	In this unit, we will learn about our Solar System, including what is in the Solar System and the sizes of the planets. We will also investigate which materials would make an effective space suit.
---------------	--

Key Vocabulary	This means ...
Sun	The star in our solar system
Planet	Something large that goes round the Sun
Moon	A large rock that goes round a planet
Solar system	The Sun and everything that goes around it
Rocky planets	The four inner planets made mostly of rock
Gas giants	The four outer planets made mostly of gases
Material	Something (e.g. cloth, foil) that can be used other to make things (e.g. clothes)
Waterproof	A material that doesn't let water through
